Dandruff Surely
Destroys the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

"SPRING FEVER"

Is not a disease but simply a sign that many body cells have become tired or lazy after the stress of winter conditions. Such cells need to be nourished and fed, not whipped into temporary activity, by so-called "tonics." Father John's Medicine is a Nature repair and rebuild tissue. It contains no drugs nor alcohol. Hence, it is a builder not a bracer. It is a food-medicine, not a mere tonic. In use for over sixty-five years.

PETTICOATS RULE
THIS KANSAS CITYThayer Municipal Administration
Now Entirely in Hands
of Women Bosses.

THAYER, Kan., May 2.—New mosh curtains today fluttered in the windows of Thayer's city hall—mute testimony that the former male citadel was now completely in the hands of the women.

And talk now is that the town pump standing at the center of the main thoroughfare may go because it isn't sanitary. But the curfew which shelters the band pavilion which shelters the pump will stay.

"We're going to enforce the curfew," said Mrs. Abby Howe Forest, the woman mayor.

A public bonfire is being planned for the comforts in the city jail. The "city mothers" told them "scandalously dirty" and rumor has it these comforts have been in service for eleven years.

No small amount of talk was started by women officials allowing the city hall to be used for the junior-senior high school dance. There is an anti-dance faction in the town.

Mrs. Hattie Mills Brewster, the new police judge, has received a letter from the "honorable" and arrested for the honor of appearing before a feminine police judge, but his offer wasn't accepted.

The hitching post faction, which fought the removal of the hitching post from Main street and was defeated, openly denounce the "skirt rule."

Nobody minds "dad's" cob pipe, his contempt for the lesser sex. But blue overalls or his secretly veiled "Dad" can't see the idea of trying to keep the city hall clean and the windows washed.

"When all this sweeping is over the dust will blow up and the city hall will get as dirty as ever," he calculated. "It's all tomfoopery," he decided.

TAKES LIFE IN THIRD
TRIAL AFTER GIRL DIES

MILWAUKEE, Wis., May 2.—Death recently of his high school sweetheart is thought to have been the reason for James Hasenmiller, seventeen-year-old high school athlete, ending his life after two unsuccessful attempts at suicide.

His lifeless body was found hanging from a cherry tree in the Sturgeon Bay orchard of Jacob Engel, commission merchant and father of his former sweetheart.

According to the members of his family, he had been melancholy since the death of the girl, Hester Engel. About nine months ago he attempted suicide, and again three months ago he was taken to Emergency Hospital by friends and poison removed from his system.

New York Official Says Shimmy Is Not Naughty Unless You Get Too Frisky.

NEW YORK, May 2.—The question, "What is a proper and decent dance?" is causing furrows of perplexity to appear upon the brow of First Assistant Corporation Counsel Nicholson.

To him devolves the duty of giving final interpretation to the new law, which requires not only the licensing of public dance halls as formerly, but the licensing of public dance.

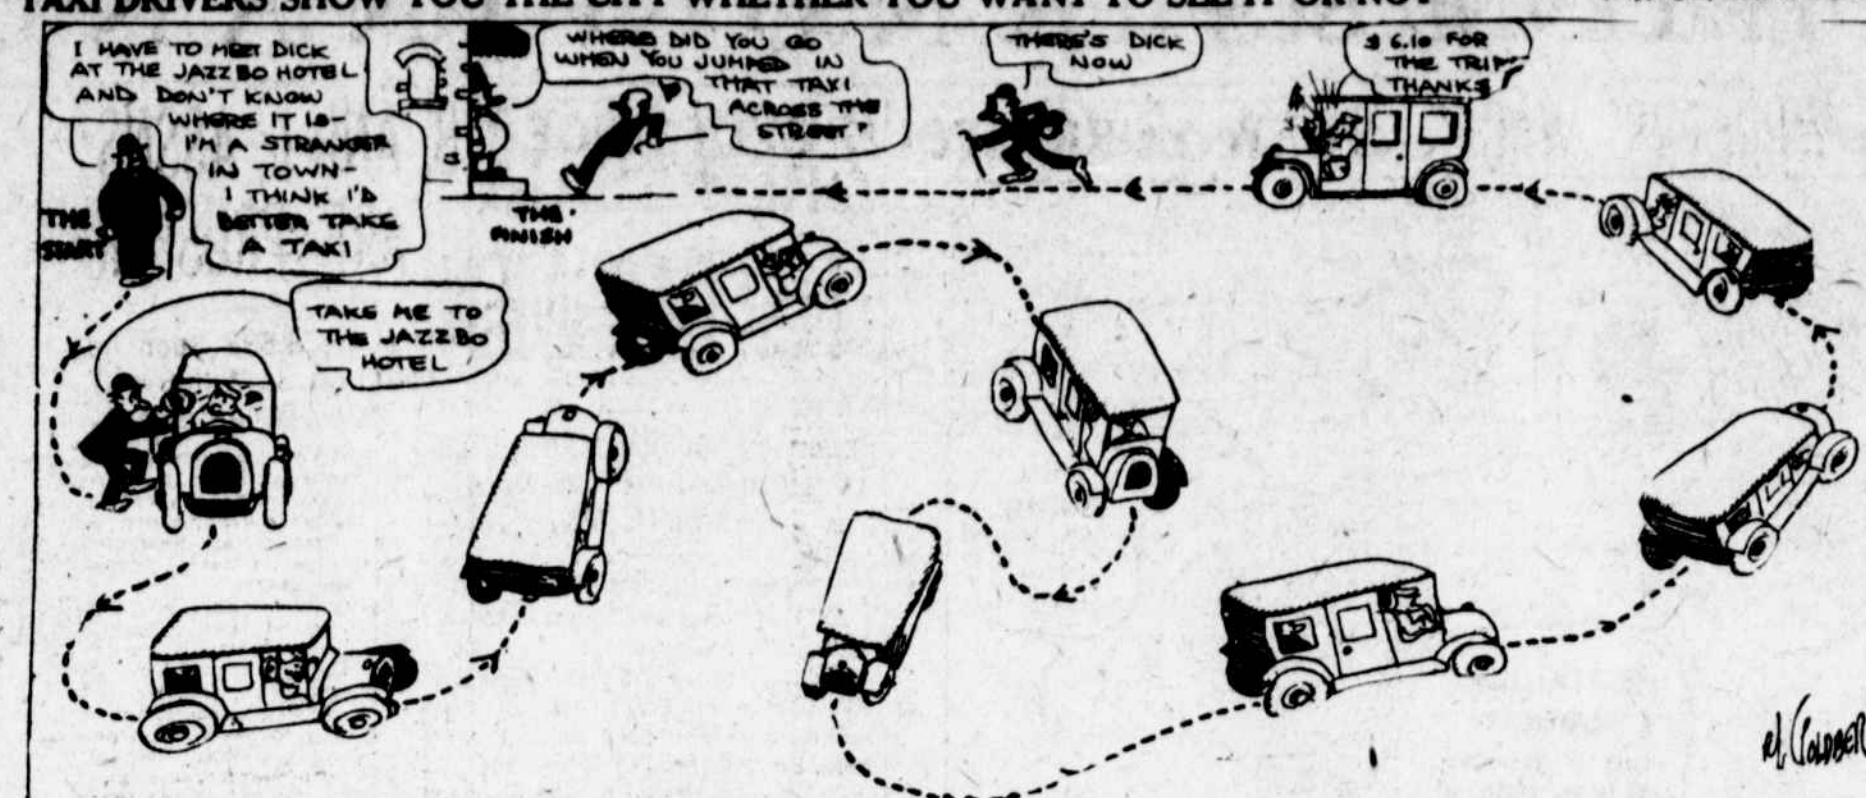

"I know there are those who do not agree with me," said Mr. Nicholson to a reporter, "but it is my personal opinion that one cannot say any particular dance is in itself immoral or indecent. The shimmy might be danced in such a way as to be unobjectionable or it might be danced in such a way as to be very improper. It all depends on the meaning thrown into it by the dancer."

"The thing conveyed may be expressed by a gesture, by an expression, by a mere glance sometimes. The immorality is in the abuse of the dance."

"You notice the law does not refer to immoral dancing," he speaks of disorderly or immoral behavior, or conduct calculated to disturb the public peace and safety."

"The statute is so framed as to admit of considerable latitude of interpretation. Each question referred to me for decision will depend on its own peculiar circumstances. I should not like just at this time to give a legal definition of immorality in the dance. Check-to-check dancing, for example, I personally object to, but some one else might feel differently about it."
